

**Responsible Budget Coalition**

# **CALL-IN DAY**

## **Weds., Jan. 13**

Lawmakers are headed back to the capitol. On the first full day of the new legislative session, we need to tell them **WE CAN'T WAIT** for a responsible budget that provides adequate revenue to fund education, health care, human services, public safety, and more. **Pass HB 174 now!**

### **MAKE YOUR VOICE HEARD!**

Call your state representative.

Dial the state capitol switchboard at **217-782-2000** and ask for him/her by name.

Or look up your representative at  
<http://www.elections.il.gov/DistrictLocator/SelectSearchType.aspx>

Tell them: “Stop devastating cuts to schools, hospitals, human services and state and local governments!

**Support House Bill 174!”**

HB 174 is comprehensive tax reform to raise new revenue that’s desperately needed to close the state’s huge budget shortfall AND make taxes fairer. The bill would raise the income tax by 2 pennies on the dollar, broaden the sales tax base, and expand tax credits for middle-class and low-income taxpayers, homeowners and seniors. It has been approved by the state Senate but must pass the House.
